

EPISODE 1: Going Online

Hello.

We want everyone to be safe, happy and proud so we developed these materials. Watch our videos and use our worksheets to help you learn about staying safe and having fun online.

From
Eastside Community Heritage & their
friends and supporters

Do you want to talk about going online? Contact us and we will arrange it.

These materials should be used with our video "Going Online." Learn about the costs of going online and how to go online for free.

Activity 1

People go online for all sorts of reasons. Some people go online to learn about the news, watch videos, listen to music, contact friends or share pictures.

Ask your friends: What are your favourite sites?

Activity 2

Going online is fun but it costs money. You may need to buy a computer or a phone and buy access to the Internet.

Ask your friends: How much does it cost to go online?

Activity 3

Going online can be expensive. Think about ways you can go online for free.

Contact your local library. Can you use their computers and go online for free?

Talk to your friends about saving money. How do they lower the costs of going online?
